

Project Beacon

Are you searching for personalized career advice in the technology field?

Enlist the help of a Microsoft Engineer!

Join Project Beacon!

Project Beacon is a mentor-ship program that pairs students with mentors in the Microsoft engineering team. It provides guidance to students to pursue careers in the tech industry by leveraging professionals in Microsoft to share their insight on what the industry demands from their future incumbents.

What we offer:

- A personal mentor from Microsoft engineering to provide industry guidance and secrets to success.
- Access to the experiences of industry professionals
- Insights into technologies used widely in the industry such as cloud computing and the Azure platform.
- Azure Credits to create their own online business, apps, games and etc.
- Build lasting connections with seasoned Microsoft professionals to strengthen your career development
